

See the Difference

Caplinked is the easiest to use, and fastest growing data room platform available today. By offering transparent pricing, with no surprises, we've become the data room of choice for some of the largest investment banks and private equity firms in the world.

Product Benefits

Cloud-Based Platform

Hosting on Amazon's AWS infrastructure provides 99.95% uptime, and accessibility virtually anywhere in the world where you have internet access. Our cloud based software, provides a better product, at a better price.

No Plug-Ins Required

No more client, or user frustration! Plugin-free technology means no updates are required while keeping Digital Rights Management (DRM) easy and convenient. Protect your documents against plugin vulnerabilities and hacks.

Fair, Transparent Pricing

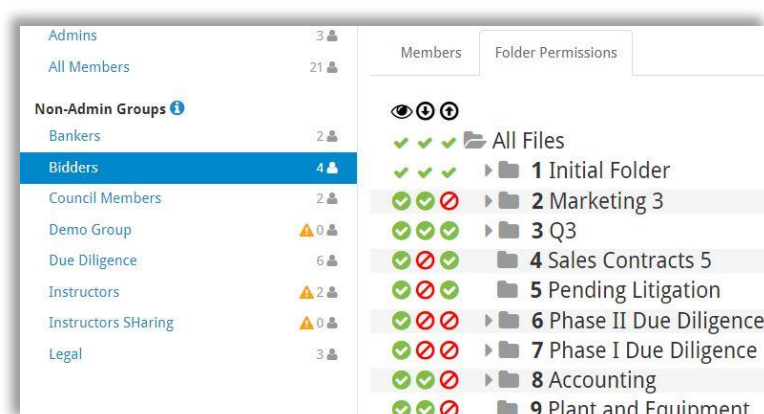

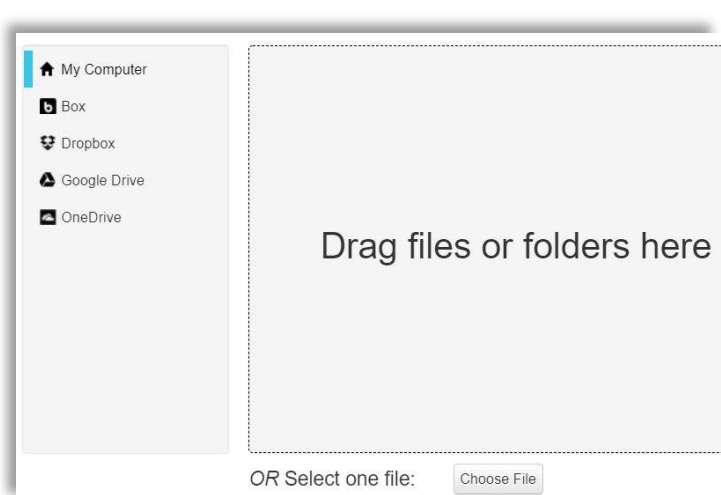

Not only is Caplinked one of the best priced VDRs available today, but you'll never have to commit to paying for services you won't be using. Contracts are customized to meet your data, and time-frame requirements. The result? You'll never receive a surprise, inflated, "final" invoice since all of your prices will be known and paid for in advance.

Product Features

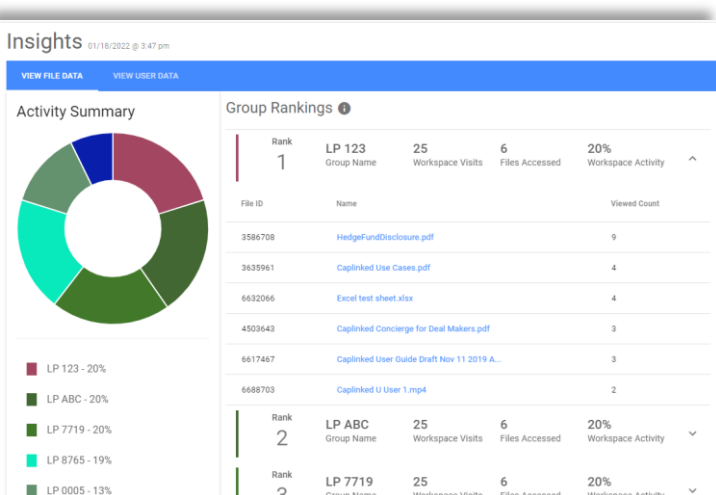

Drag & Drop Upload

Upload all of your folders, sub-folders, and files with one simple step.

Simple, Error Free Permission Settings

Caplinked makes setting permissions simple, and problem free. Color-coded selections provide an easy visual of which groups have viewing, downloading, and uploading permissions.

Robust Activity Reporting

Provided with all plans, "EZ Insights" gives a highly visual dashboard for in depth activity reporting at a glance. Using a variety of activity metrics, groups are ranked so you can easily gauge buyer, investor, or other user's intent. Dashboards are available for both file and user reporting.

Testimonials

"CapLinked delivers the goods. CapLinked's elegantly simple yet robust modern technology eliminates the roadblocks and headaches I've experienced with competing platforms of yesteryear."

Senior Associate, American Capital

"We wanted a faster, easier, and more predictably priced data room platform to close deals and raise funds with less effort. CapLinked delivered on all of those fronts."

Aman Verjee, COO - 500 Startups

"CapLinked on average can reduce the amount of time spent performing due diligence on a sizable loan portfolio by 20% to 30%."

Senior Director, Investment Bank

Since being founded in 2010 by Eric M. Jackson (PayPal's first head of US marketing) and Christopher Grey (former private equity and investment banking executive), CapLinked has become a top choice as a virtual data room platform.

CapLinked makes it faster, safer, and easier to manage business transactions in the cloud. CapLinked's secure platform provides companies with easy-to-use tools for capital raises, asset sales, mergers & acquisitions, real estate deals, investor & board reporting, business development negotiations, and other types of complex business transactions. The Wall Street Journal called CapLinked "the go-to place for setting up and closing deals," and Inc. Magazine named CapLinked to its list of 5 Back-Office Tech Innovations.
